

ERIC OLAVESON

WEB DEVELOPER

RESUME

E O

PROJECTS

Raw Trails
Individual Project – Live Website

Oct 2018

SPA for a small business that includes both client facing website to find and book guided trips and administrative side to control scheduling and allocate equipment. It's written in SERN stack primarily, while also utilizing tech such as Auth0, Stripe, Nodemailer, Google maps API, and YouTube API. Received award for best UI/UX at DevMountain.

Appy
Group Project

Nov 2018

Positively themed social media application written in React Native. I learned React Native and developed project in 2 weeks from inception to deployment while utilizing Git and GitHub repository for project management.

EDUCATION

Full Stack JavaScript Developer
DevMountain
Immersive web development program
focused primarily on the SERN stack
July – Nov 2018

Exercise Physiology
BYU-Idaho
Studies included how the body moves
and how to do beneficial exercise
2012 - 2017

EXPERIENCE

UI/UX E-Commerce Developer Intern
Mizzen+Main

April 2019 – Present

I quickly learned the templating language Liquid, as well as, the technologies and programming paradigms SCSS, SMACSS, BEM, CSS Grid and Shopify. I Designed site pages in Photoshop, wrote code for the wholesale and retail sites and put together learning materials for new company developers.
